

MARINE & INDUSTRIAL

Varley Ship Repair has been servicing the industrial maintenance and ship repair markets since the company's establishment in 1886. With more than 100 years of continuous operation, Varley has amassed an immense amount of knowledge and expertise in all areas of ship maintenance and repair, and is a respected member of the Australian Ship Repairers Group.

Varley Ship Repair draws on an enormous skill base including technical personnel, engineers (marine, design, mechanical, structural etc.) and support staff, enabling the company to carry out work in all areas of general and specialist ship repair.

III Major Projects: proven experience in project managing major ship refurbishment, ship conversion and engine replacement/upgrade projects.

III Mechanical: capable of pump and gearbox refurbishments, crane refurbishments and lift equipment testing/certification, engine services, overhauls, rebuilds and mobile in situ machining.

III Structural: capabilities extend from hatch straightening through to hull and superstructure repair and replacement, with the ability to replace damaged or corroded sections in any specified material grade.

III Consultancy Services: in-house engineers with years of experience allow Varley to offer consultancy services, report generation and important pre-purchase inspections.

III Pipe and Boiler Work: working with copper, cupronickel, stainless steel and other exotic metals, Varley Ship Repair is skilled in all pipe and boiler work. From boiler survey, rebuild and repair to installation, pipe repair, valve overhauls, refurbish ballast tank air pipes etc.

III Cargo Services: includes hold cleaning, cargo separation, cargo securing and unlashng.

III Shipwright Capabilities: a proud tradition of shipwright skills is maintained, allowing for lifeboat servicing, internal fit out, anchor inspection, chain and rope testing etc.

III Brows and Gangways: extensive skills in brow or gangway manufacturing, refurbishment, on site repair and short or long term hire. Large range available.

III Specialised Skills: catering for electrical and hydraulic repairs covering motor rewinds, generator fitment, hose and pipe replacements, glass replacements etc.
