

RAIL SERVICES

Varley have been servicing the Rail Industry since 1984 and have grown into a major supplier of Rolling Stock Manufacture, Maintenance and Refurbishment. Varley provide quality services to the rail industry along the eastern seaboard of Australia from their NSW and Queensland facilities.

The Rail Maintenance Service Centre is strategically located within the Port Waratah, Newcastle Marshalling Yards with 4000m² of modern covered workshops with high capacity crange. Varley's facilities boast state of the art sheet metal and fabrication equipment including fully automated robotic welding stations. Our operations are further supported in Queensland from our Virginia facility.

Varley Rail offer the following services:

- ||| Locomotive underframe fabrication and fit out
- ||| Operator cabin, freight wagon manufacture and fit out
- ||| Automated top hatch and discharge door systems for bulk product hopper wagons
- ||| Special purpose rail vehicle conversions and refurbishment
- ||| Rolling stock repairs (ferrous and non ferrous materials)
- ||| Rail fleet maintenance services
- ||| Rolling stock refurbishment
- ||| Bogie repairs and refurbishment
- ||| Manufacture and supply of railway components and spare parts
- ||| Rapid response breakdown and derailment service
- ||| Rail vehicle painting facilities
- ||| Rolling stock surveys and testing
- ||| Supply of rail components and steel castings
- ||| Pressure vessel certification and commissioning
- ||| Full rolling stock accreditation design verification and testing services
- ||| Turnkey design, drafting and manufacture services
- ||| Specialised labour hire

Varley's manufacturing capacity is supported by their main workshops located in Tomago providing an overall site area of 48,700m² including an additional 14,500m² of covered workshops.

Varley Rail Services is a division G H Varley Proprietary Limited and is 100% Australian owned. They are a quality endorsed company. Varley's success can be directly attributed to their dedicated management, engineering experience and skilled trades people.
